Data Importer

The screenshot shows the Neo4j Data Importer web interface. On the left, under the 'Files' section, there are two CSV files: 'settings.csv' and 'reviews.csv'. The 'settings.csv' file is expanded, showing a table of data. The main area on the right displays a graph visualization with nodes and edges, and a central text box that says 'Start sketching a model' with a button 'Add node label'.
